## e-STUDIO2822AF

### Product brochure

---

- > The e-STUDIO2822AF has a footprint equivalent to that of an A4 printer but it's also able to print, scan, fax and copy A3 formats.
- > Via the bypass feed and the Automatic Document Feeder, you can easily switch to the larger format when needed.
- > With a print speed of 28 pages per minute, its robust and compact size fits many work environments such as start-up enterprises, back offices and warehouses.

**TOGETHER  
INFORMATION**

## KEY FEATURES

- Print, scan, fax and copy in A3 on a system with an A4 footprint.
- Highly reliable and durable at a speed of 28 pages per minute.
- Economically and ecologically efficient with duplex printing, internal toner recycling and energy save modes out of the box.

Small, robust and reliable means it fits perfectly anywhere.

## BENEFITS

Space is so often limited which means your printing solutions need to be extremely flexible in order to cater for all the different documents types required. Even though printing in A4 format is the norm, in many cases there are tasks that require A3 printing, scanning, faxing and copying as well. More often than not, companies simply do not have the space for a conventional A3 format multi-functional system. That is precisely why Toshiba developed the e-STUDIO2822AF.

### Small space - large functionality

With its compact design, the unit fits easily into many work environments. Packed with all the functions you'll ever need in a modern office environment – including colour scan – this system is extremely reliable.

- Connectivity
  - The e-STUDIO2822AF is easy to integrate into existing networks. You can also print from and scan directly to USB.
  - For businesses which require a fax function, the e-STUDIO2822AF with its fax as a standard feature is ideal.
- Intuitive Usage
  - Ease-of-use is key if you want to be productive. That's why, we have made sure all functions are easy to access and intuitive to use, like double-sided ID copy or mobile print and scan.
- Efficiency
  - With the e-STUDIO2822AF you can increase your efficiency in many ways. Ecological efficiency, thanks to resource saving features directly translate into economical efficiency: With low running costs, you'll benefit by saving money.
